

MILK ORGANIC

Blend with the Purity of Nature

PROJECT INTRODUCTION

Milk Organic is a platform in which we connect customers with the milk man. we recommend customers the milkman whose rating is high and he provide the quality milk. In this way, we can do better the quality of milk.

PROBLEM STATEMENT

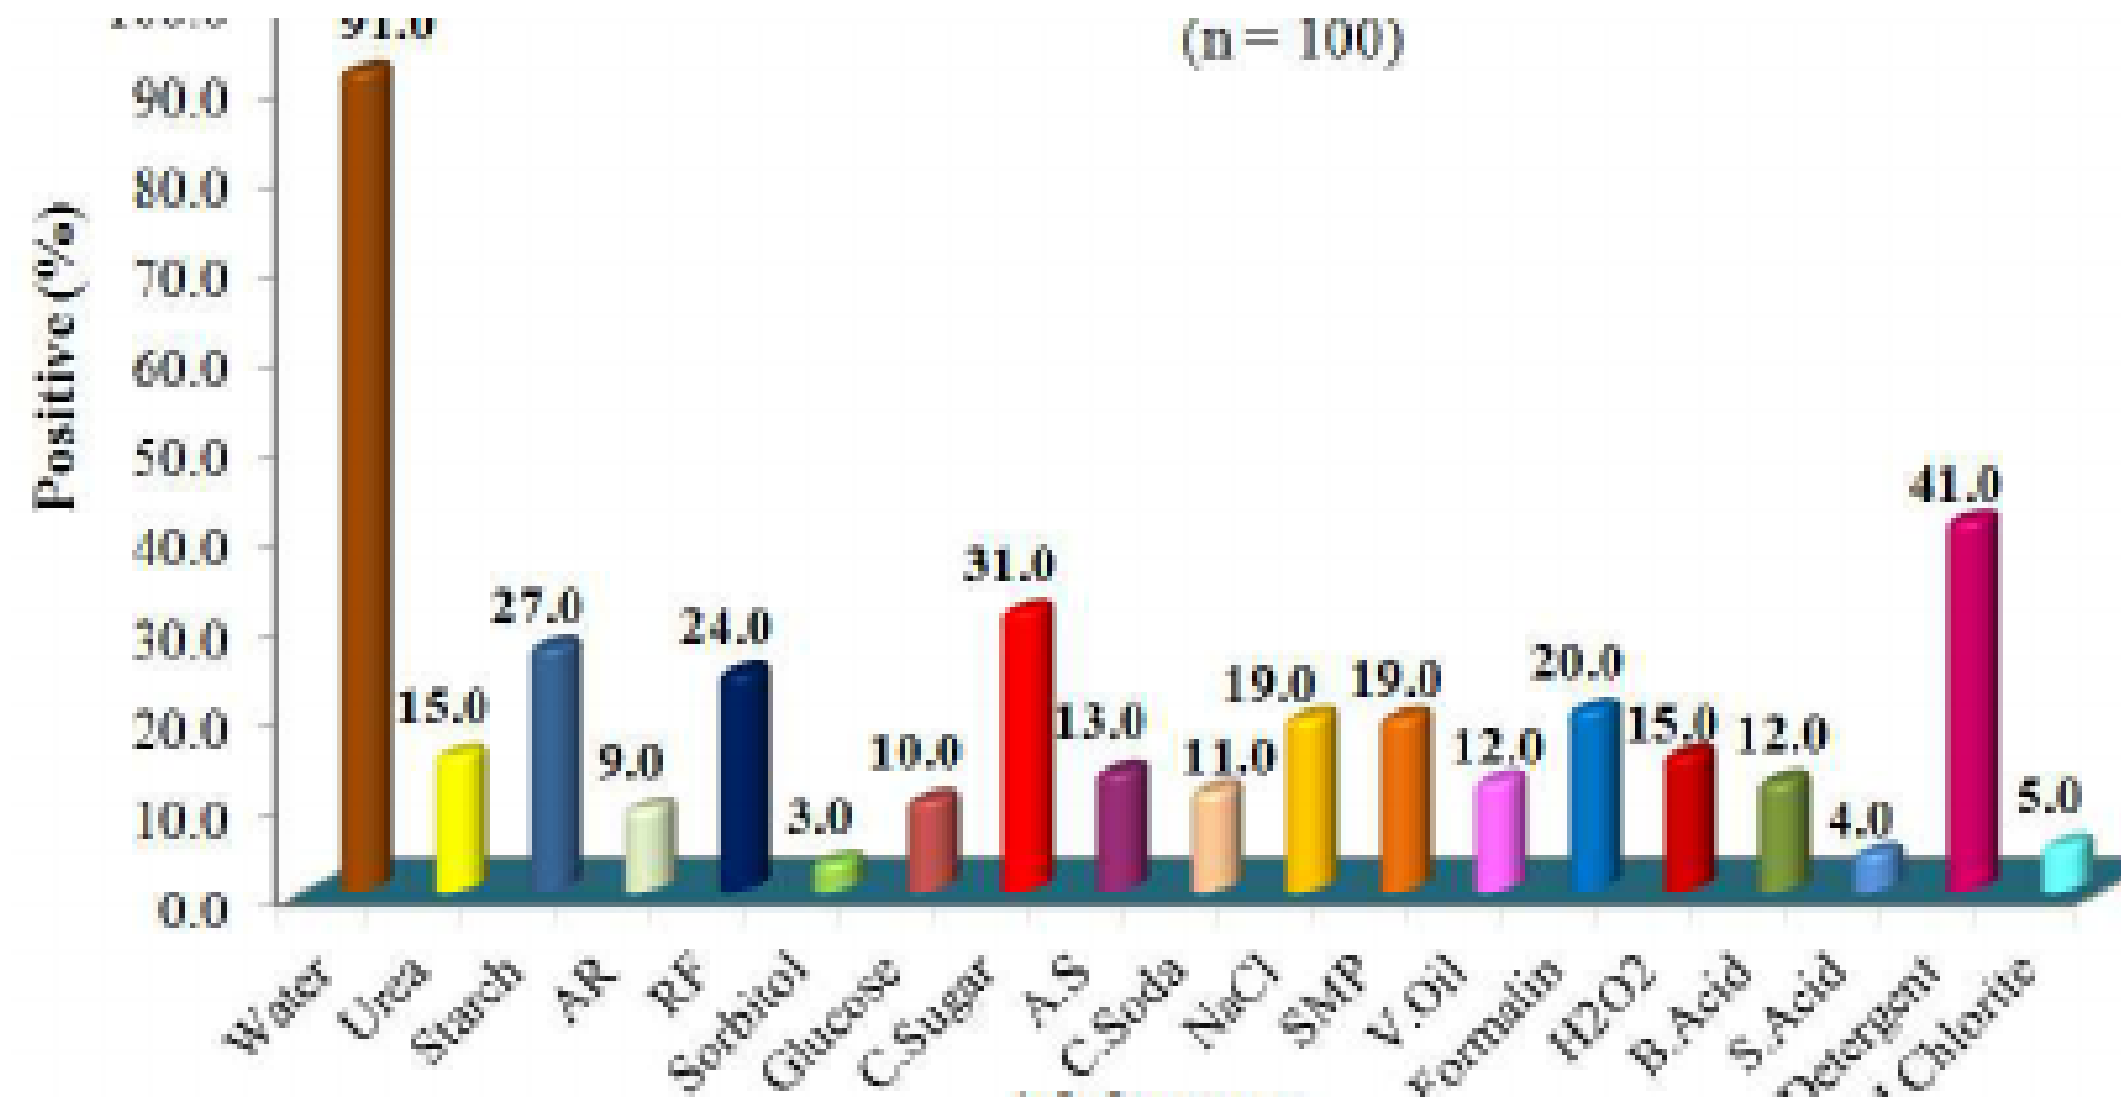

- In India, the issue of impure milk is a significant concern. Adulteration with water, synthetic milk and contaminants like water, urea, or other additives has been reported. This poses health risks and undermines the nutritional value of the milk.
- 

SOLUTION STATEMENT

- Ensuring pure milk involves a combination of regulatory measures, consumers awareness, and industry collaboration.
 - Additionally, Promoting awareness about the importance of purchasing milk from reputed sources can empower consumer to make informed choices. collaboration between dairy producers directly to the consumers can lead to the betterment in the quality of dairy product .
